eBook.

You can open the "flipbook" folder in "C:", there are three files in this folder:

Open the "demo.html" file to view the page-flipping book you create via Web Browser, such as Internet Explorer, Google Chrome, Firefox, etc.
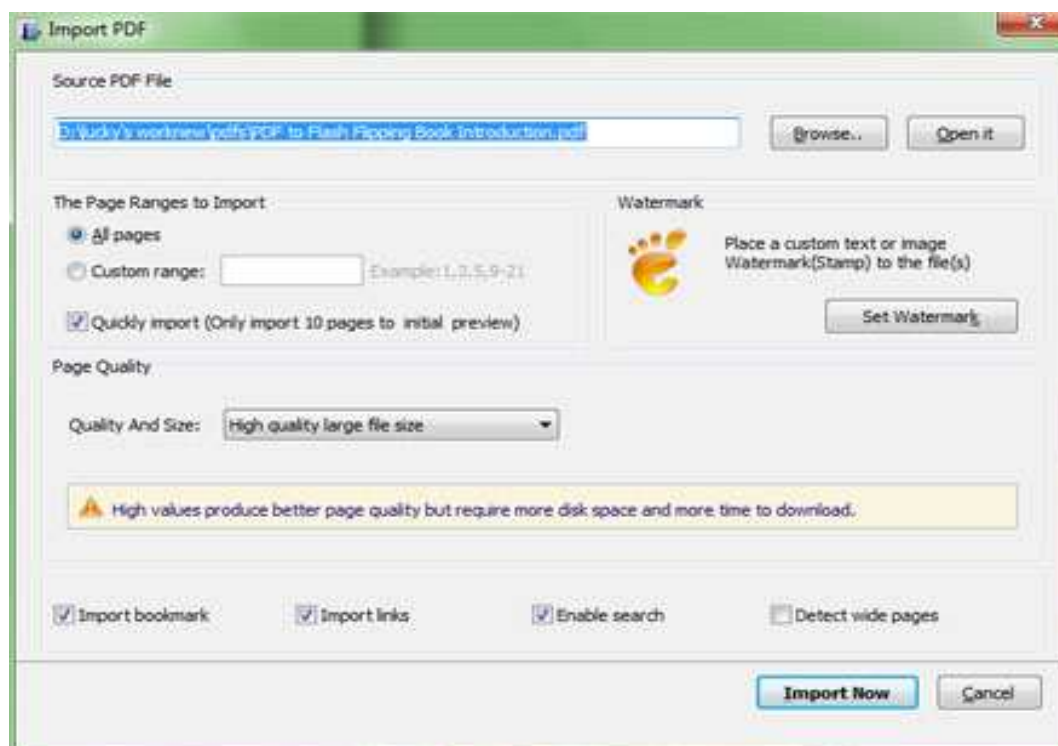

There are some major interfaces you will see while using PDF to Flash Page Flip as follows: **Application Options**, **Import PDF**, **Template Settings**, **Language Option**, **Output**, **Upload Online** and **Batch Convert.** You can go to each page to make yourself clear about the options available.
# I. Import PDF Interface

1. Source PDF File
Browse.. Click this to select the PDF file you want to convert;

Open it Preview the content of PDF file imported.

2. The Page Ranges to Import

All pages Convert all pages to page-turning eBook;

Custom range: 2-5 Example:1,3,5,9-21 Customize range page;

Quickly import (Only import 10 pages to initial preview) Check the effect on first 10 pages instantly.

3. Watermark

Set Watermark Add image or text watermark to flipping pages.

☑ Applying Watermark Check this option first to select default stamps or add new

ones:

- Edit
- Add text stamp
- Add image stamp
- Delete
- Move down
- Move up

4. Page Quality

There are five optional types of "Quality And Size":

- Higher quality larger file size
- High quality large file size
- Medium quality medium file size
- Low quality small file size
- Lower quality smaller file size
5. Other Options

☑ Import bookmark If your PDF file contains bookmarks, check this option to use

in output page-flipping eBook

☑ Import links If there are links in your PDF files, check this to enable in

flipbook;

☑ Enable search   Click this option to enable functionality of search in created

flipbook.

☑ Detect wide pages   Click this option to make landscape page in PDF file to be

presented as two-page spread in output flipbook.

At last, click Import Now icon to enter into template setting interface.

II.   Application Options Interface

1. Render Engine Option

PDF to Flash Page Flip offers you with 3 different render engines for you to make good page-flipping eBooks, click "Options->Application Options" to enter into "Render Engine" interface:
SWF: Much legible characters, smaller output size
GPL Ghost Script: Higher color transfer quality

Inner Library: Faster convert speed
(Change option when PDF imported fails)

2. Create Mobile Version Option

(1) Pages Quality and Size
Five types of "Pages Quality and Size" for mobile version flipping book:

(2) Mobile Template
There are alternative templates available for you including slide and single page flip which let you enjoy the page turning effects on your cellphone.
III. Template Settings Interface

PDF to Flash Page Flip offers you with 4 different templates currently ,they are: Classical, Float, Neat and Spread. Each template contains some unique settings, the followings instructions will make you clear in great details:
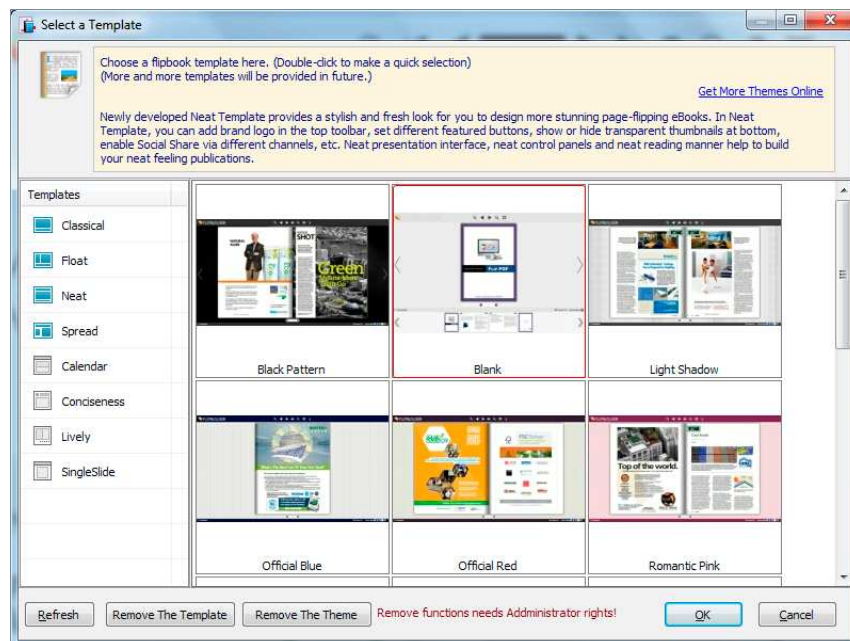

The design setting interface contains below main parts:
Select Template, Tool Bars Settings, Flash Display Settings and Flash Control Settings.

1. Select Template

Click icon to select templates from below interface:

Download more templates/themes to use:
http://www.flash-page-flip-maker.com/templates-themes/index.html .

 Click this for saving current settings as a TXT file for later uses;
 Click this for importing stored setting file immediately.

2. Tool Bar Settings

(1) Title Bar (only support Float and Neat template)

Customize book title and logo for showing on the top of your flipbook. You are enabled to set the book title as HTML format text. For example: FLASH-FLIPPING-BOOK.COM | Red Color

(2) Buttons Bar

i. Home Button

Adding a home button 🏠 to help reader to click and enter your website directly:

ii. Full Screen Button

To enable "Full Screen" functionality in output flipbook, select "Show" in "Full Screen Button" option: Full Screen Button   Show

Then you can click this ⬛ to view flipbook in Full Screen, click icon ⬛ or "Esc" button to   back   from the Full Screen.

Or if you want to show your flipbook without Tool Bar while showing in Full Screen mode, you can set "No" in "Full Screen without Tool Bar" (only support   in Classical Template): Full Screen Without Tool... Yes

iii. Help Config

Help Config	
Help Button	Show
Help Content File	-type.png
Help Window Width	400
Help Window Height	450
Show Help At First	Show

The button of help is designed to help you get tips while reading the flipping book. And you are also enabled to insert image or SWF flash and customize their width and length. If you set "Book->Retain the book to center->No", you can set "Show Help At First->Show" to display the Help Panel with the Book as follows:

 Click the button ? also for viewing the same Help page in pop-up window.

iv. Print Config

Select "Yes" in "Print Enable", then click icon [🖶] to set print page range as follow:

You can also click button of "Print Watermark File->…" button to select image or SWF file from your computer as watermark on printed out pages.

v. Download Setting

If you want your flipping book readers to download the PDF file or the

flipbook directly from your website, select "Yes" in "Download Enable" option, then input Download URL directly like "http://www.flash-page-flip-maker.com/flip-pdf/example/files/download/FlipPDFDemo.pdf" or relative path like "/files/download/FlipPDFDemo.pdf" (make sure you have uploaded the PDF to the same path).

Then readers can click the icon to download your uploaded PDF file directly.

vi. Sound

If you want to insert background sound to your flipbook, such as a beautiful piano composition, set "Enable Sound->Enable", then click " " icon to select "Sound File" from your computer, then set "Sound Loops", "-1" means playing the sound file all the time while viewing flipbook, other value (N>0) means the times of playing the sound file.

vii. Zoom Config
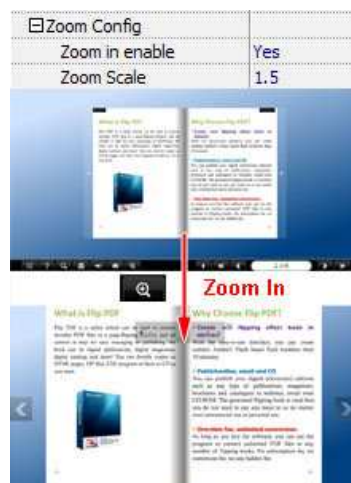

Enable the function of zoom by click the button of "Zoom in enable", and then set "Zoom Scale", the value means the times between zoomed page size and the current page size.

Under Float template, you have the ability to adjust more conveniently by the zoom in tool like this: . You can also set "Scroll with mouse->Yes" to scroll zoom in page while moving mouse.

viii. Search

Search Button	Show
Search Highlight Color	0xFFFF80
Least search characters	3

Select "Show" in "Search Button" (first make sure you have click "Enable Search" option in the interface of "Import PDF"), then define "Search Highlight Color". When clicking "Search" icon [icon], a pop up box will show up which need to input search words, then click Enter or "Search" button, you will obtain the searching result as follow:

ix. Share

Share	
Share Button	
Social Share Button	Show

a. Share Button (via Email)

If you want readers use Email to share the flipping book, you can enable "Share" feature as follows:

Share Button	
Share Button	Show
Email Subject	Rear my fli...
Email Body	{link}

When the viewers click this [icon], they will enter into the Email interface with the link of your flipbook in the Email body.

b. Social Share

If you want your flipbook viewers to send the link to their friends or clients via Facebook, Twitter, Linkedin, Google, Yahoo and so on, you can add a Social Share button in your flipbook for readers to send out your flipbook link immediately:

Social Share Button	Show

Just need to click the "Social Share" button , many popular social websites will show up as follow:

x. Auto Flip

To auto flip your eBooks, you can set "Yes" in "Auto Flip->Enable" option; then define the Flip Interval (seconds of staying on each page); the value of "Play Count" stands for the times of auto playing the eBook, and "-1" stands for playing continually (after clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page); if you want to auto start and flip the eBook after opening, just set "Auto flip when start up->Yes":

Auto Flip	
Enable	Yes
Flip Interval	3
Play Count	-1
Auto flip when start up	Yes

xi. Thumbnail Button

Thumbnail Button	Enable

Enable Thumbnail Button (set "Enable") to view page thumbnails of your book, or you can disable it to hide the button.

xii. Single Page

Single Page	Enable

Single page help you read more comfortably if the page is hard to recognize, you

can set "Single Page->Enable" to enable readers to click "Single Page" icon

to view pages one by one, and click "Double Page" icon to back to the normal book reading mode.

xiv. Language

You can define the language for showing tools or tips in the flipping book you make, which includes 10 languages available. click "…" to enter into "Language Settings" interface. You can set no matter how many language you need, just check "Switchable" option, then users can click "Switch Language" button

 to select their suitable   language for tips:
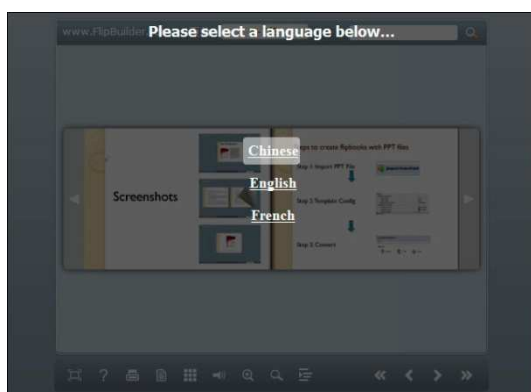

(3) Tool Bar on Top (only in Float template)

If you want to place the toolbar in Float templates on the top of the flash eBook instead of on the bottom, just select "true" as follow:

(4) Button Icons

Define color for the icons of the buttons:

3. Flash Display Settings

Flash Display Settings	
Retain the book to center	Yes
⊞Font	
Initial Show	None
Show Corner Flip Effect	False
⊞Background Config	
Flash Window Color	▣0x8fa0ab
Page Background Color	▢0xffffff
⊞Book Proportions	
⊞Book Margins	
⊞Page Shadow	
Hide Book Frame Bar	No
Right To Left	No
Hard Cover	No
Flipping Time	0.6
⊞Page Number	
⊞Minime Style	

(1) Retain the book to center

Retain the book to center	Yes	▼

When you select "No" in this option, the book will be shown on the right-side. This setting is especially for embedding special background image, such as trademark or company logo.

(2) Pages per thickness (only support Neat template)

To make your ebook vivid, you can set Pages per thickness, which means how many pages to show a distinguishable thickness. The smaller value set, the thicker your book. But If the value is smaller than 0, or larger than the total page number of your book, it won't show any thickness. And on the book edge, you will see different page number tips for you to click and go to that page directly:

(3) Font

If you want to change fonts of toolbar buttons, flash windows even bookmarks or search result panel, you can set font types and colors in Font Panel.

(4) Initial Show (set in Float/ Spread templates)

You can show Bookmark panel or Thumbnails panel on the flash page at the beginning, just select "Bookmark" or "Thumbnails" in this option:

For Example, select "Thumbnails":

Then you will get flipbook shown with below initial interface:
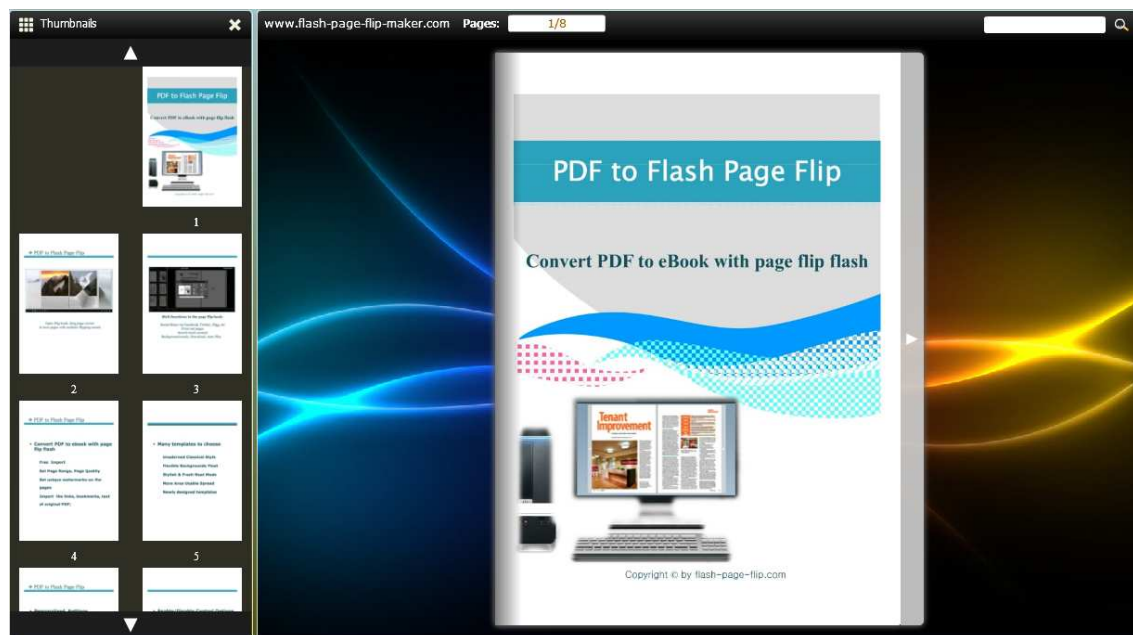

(5) Background Config

i. Background Color:

Define background for your flipbook with gradient color or pure color (the same color for "Gradient Color A" and "Gradient Color B"). Gradient Angle is the angle between two colors.

ii. Background Image (set in Classical and Spread templates):

Click the icon " " to select background image from your computer, and

there are 11 kinds of "Image Position" for you to select: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

iii. Background Image (set in Float template):
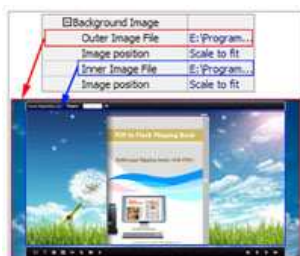

The Float template enables you to add two background images: Outer Image and Inner Image. You can make Inner background image to show special information, such as advertisement or company logo, etc. There are also 11 kinds of "Image Position" for you to select: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

(6) Flash Window Color

This color will be applied on all flash windows, such as the book window, "Help" window, "Print" window and so on.

(7) Page Background Color

When load pages, or if the page number of your PDF file is odd, then the page (the last page) will show with the "Page Background Color".

(8) Book Proportions

Please note that the values are not fixed in pixels or inches, they just represent a ratio for "Page Width: Page Height", and the book size will be changed depend on your Explorer Window Size.

(9) Book Margins

i. Book Margin (set in Classical Template):

"Book Margin" refers to the distance between the book and the toolbar.

ii. Top/ Bottom/ Left/ Right Margin (set in Float/ Spread Template):

(10) Page Shadow

The value also takes the value of Book Proportions as reference, and the value interval of "Page Shadow Opacity" is "0~1", the larger value refers to the deeper shadow color.

(11) Hide Book Frame Bar

If don't want to show the book frame bar, select "Yes" in this option.

(12) Right to Left

If the language of your file is read from right to left (such as Arabic), then select "Yes" in "Right to Left" option:

(13) Hard Cover

If you want create hard cover effect (a book bound with rigid protective covers) for your flipbook, select "Yes" in "Hard Cover" option:

(14) Flipping time

Sets page flipping time in seconds according to your needs. (Recommended value is 0.6)

(15) Page Number

If you don't want to count in the cover page, table of contents pages into the actual page numbers, you can set "Start Page Numbering (Roman)" and "Start Page Numbering (Arabic)". For example, the first 3 pages are Table of Content pages with Roman page numbers, and set Arabic page numbers from page 4, then you will get page number box like below:

(16) Minime Style

If you want to present Page-flipping eBook pages directly without showing toolbar, especially when you want to embed eBook into a small area in existing webpages, then you can use this "Minime Style".

The Minime Style will trigger when the Width or Height of the Flash Container is less than the defined value. You can also always show the page-flipping eBook in Minime Style with adding a parameter to your URL like this: www.yourdomain.com/index.html?alwaysMinimeStyle=true .

4. Flash Control Settings

(1) Security Settings

If you want to protect your flash books with passwords, you can click "…" icon to enter into "Flash Security Config" interface:

Select "Security Type->Single Password", and input passwords into the box (there is no restriction on password format at present). You can also set "Protect Page Range" as "All Pages" or the latter pages after a defined page number. (Tips: The program utilize RC4 algorithm to protect eBook pages, the eBook content pages will show nothing without permission.)

(2). Links

If you have check "Import links" option in "Import PDF" interface, or add links in "Edit Page" interface, then you can define settings here, select "Mouse over color", "Link alpha" (refers to the link area opacity, value interval: 0~1, "0" stands for the area is totally transparent), and "Open Window->Blank/ Self". The links also can be clicked after zooming by setting "Enable after Zooming in->Enable".

(3). Google Analytics

Google Analytics ID

In the HTML output format, you can add statistics by using google analytics. You can get more information about Google Analytics ID from http://www.google.com/analytics/ .

Besides, Export Theme

If you want to save the current template settings as your own style template for later uses, you can click "File->Export current settings as Theme" button to storing all current template settings, include the background images, margin values, toolbar buttons and so on.
Then when you want to use later, just click "File->Import Themes", the theme will be added to the templates selecting interface.

Download more free themes from Flashflippingbook now:
http://www.flash-page-flip-maker.com/templates-themes/index.html .

# At last, click Apply Change icon to apply the settings.

IV. Language Options Interface

Click "Option->Flash Language" or "…" button beside Language setting part, you will enter into the Language Settings interface as follows shows:

Panel Description:

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you 10 different languages for you to use: English, Chinese, Arabic, French, German, Greek, Hebrew, Italian, Japanese and Portuguese.

You can also add other language for your own uses:

1. Click the button and define name for the new language:
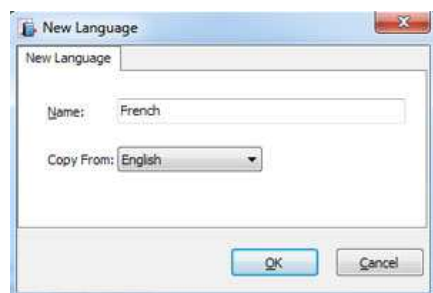

Click "OK" to save the new language in the list;

2. Select the first label and click "Edit" icon, define new language text in "Labeled" box, then click "Save And Edit Next":

3. At last, you can get all Labels translated into your new language as the images shows:

You can delete unwanted language:
Or save your edited new language file as XML or TXT file:

Load language file saving before for current using:

V.   Output Interface
Output types:

1. HTML

This output type is for uploading created page-flipping ebook onto websites. You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords, Description or even Script in the below interface:
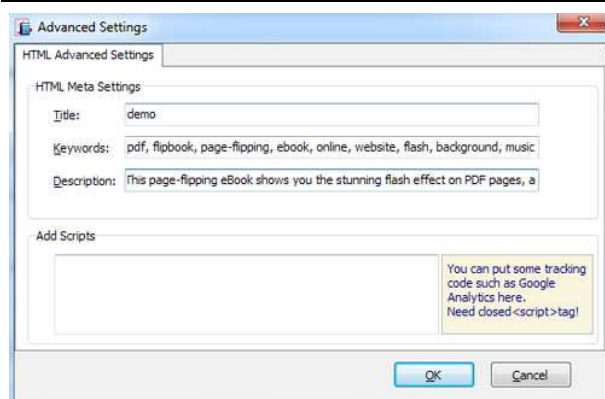

2. ZIP

This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon. Your recipients just need to uncompress the ZIP file and then they can view the HTML flipbook instantly:

3. EXE

This type is for outputting flipbook as a single executive file, easy storing and easy viewing:
You can also define Icon and Opening Window Size in Advanced Settings:
4. APP

If you want to make executable application to run on Mac devices, you can output as "*.app" format.

5. Mobile Version

You can even output Mobile Version while choosing HTML or ZIP format at the same time.

After creating mobile versions, you just need to output all files online (including HTML, SWF, "files" and "mobile" folders), then you can visit the flipbook page through your mobile browser.

6. Burn to CD
After choosing output type, then check the option "Burn to CD", set "CD Writer", define "Disc title".

About "How to make created eBooks available for others online", you can

view details in below support page:
http://flash-page-flip-maker.com/support/how-can-i-share-my-created-ebook-online.htm .

At last click Convert button to output flipbook in your defined type.

VI. Upload Online
